ABOUT

Mechanical Engineer with 10+ years of experience in process optimization, Lean Manufacturing, and Integrated Management Systems. Skilled in identifying and solving production issues, ensuring compliance with internal standards, and fostering a continuous improvement culture. Strong analytical mindset, international collaboration experience, and a customer-focused approach to problem-solving.

EXPERIENCE

2025 — PRESENT

Relocation to Basel

BASEL, CH · CAREER TRANSITION

- Building **FlowBase**, a management platform for production environments (React/Vite + Supabase), applying ERP/MRP/MES/CMMS concepts to real operational workflows.
- Running a part-time, self-employed venture while pursuing full-time opportunities.
- Managing household and childcare full-time, while improving my German.

2019 — 2024

Operational Excellence Engineer

LIBERDÚPLEX · BARCELONA · BOOK PRINTING & BINDING

- Developed and executed the company's continuous improvement strategy, strengthening quality awareness across all levels.
- Led the Integrated Management System (IMS) aligned with ISO 9001 and ISO 14001, fostering a culture of continuous improvement in quality and environmental performance.

KEY ACHIEVEMENTS AT LIBERDÚPLEX

- Led several digital transformation projects to streamline quality, production and supply-chain software systems.
- Improved workplace organization and cleanliness (5S), driving increased safety, efficiency, quality and sustainability.
- Reduced defect rates and rework costs through structured problem-solving and Lean initiatives, improving on-time and complete customer deliveries.
- Led company-wide Lean Manufacturing training: motivational sessions on a no-blame culture, questioning the status quo, 5S, the seven wastes, value stream and its importance, TPM, and the role of Gemba.
- Ran factory-wide 5S training, followed by red-tag workshops and PDCA cycles.
- Delivered SMED workshops on bottleneck machines, achieving significant reductions in changeover times.
- As Product Owner, drove major digitalization projects: full digitalization of internal logistics linked to a real-time planning tool; MES integration with production planning and logistics for real-time schedule adjustments and aggregated data; traceability, standardized cleaning and order protocols, and TPM inside the MES; real-time KPI dashboards for production; a project- and training-planning system linking CAPA and PDCA cycles; critical-path integration of production planning with purchasing and external suppliers of semi-finished goods; and a bidirectional balanced-scorecard dashboard bringing every initiative together — plus a scalable CMMS rollout for maintenance, initiated but not completed due to the relocation to Basel.

2013 — 2018

Entrepreneur — Artisan Restaurant

BARCELONA · HOSPITALITY & FOOD SERVICE

- Founded and managed a successful hospitality business, leading a team of six.
- Developed strong leadership, customer focus and organizational skills before returning to the industrial field.

2005 — 2012

Supply Chain Engineer

MANGO · BARCELONA · RETAIL OPERATIONS

- Improved process flow and data accuracy across the supply chain.
- Led cross-departmental improvement projects to optimize production and delivery planning.
- Enhanced product availability and minimized waste through demand-driven planning (Pull Flow system).
